Our newest program is still in its infancy but growing. Our Safety Net Program is run solely by dedicated Humane Society volunteers who want to help pets and pet owners in need. They’re working to find resources and make connections and networks for care. We’re slowly going public to help those in need.

The goals of the program are:

- To provide pet food and supplies through a pet pantry
- To provide temporary foster homes
- To provide a list of pet friendly rentals
- To provide resources of a network of pet sitters, daycare, boarding and grooming

Who do we help? Anyone in need including:

- Families/people who have been evicted
- Someone in the hospital or a rehab facility
- Those in financial need
- Recent immigrants
- The disabled
- Veterans
- Someone in transitional housing/shelter, and domestic abuse
In need of assistance?
Whether you are going in for surgery with no one to care for your pet while you are in recovery, have found yourself temporarily without a home, or the money you had available for this month didn't quite stretch far enough to cover all of your expenses, we would like to help you. Through caring for your pet temporarily, providing your pet with enough food to get you by, or helping you find a new home that will let your furry friend live there too, we would like to be your compassionate resource for assistance. Reach out to us through our email at safetynet@hsfn.org or call at 603-889-2275 x31.

Interested in volunteering?
HSFN is committed to providing each volunteer with a rewarding and productive experience. We are always looking for individuals/families who are willing to open their homes to pets who need a little extra care while their owner is temporarily unable to care for them or a little extra time before going up for adoption. Fostering is a rewarding experience, and there are many different types of opportunities available.

For more information or to volunteer your time or resources, please call 603-889-2275 x31 and leave a message for the Safety Net Program or email safetynet@hsfn.org

“There is no exercise better for the heart than reaching down and lifting people up.”
